

Reemika Subrata Das

• AI/ML Engineer | AI Product Builder • San Jose, CA • das.reemika@gmail.com • 408-829-7230 • [LinkedIn](#) • [GitHub](#)

EDUCATION

Santa Clara University - M.S. in Business Analytics | Sept 2024 - Dec 2025 | GPA: 3.71/4.00

- Data Analytics with Python, SQL Fundamentals, Tableau, Machine Learning, Deep Learning, Marketing Analytics

ITM Business School - Post Graduate Diploma in Management | Jun 2019 - May 2021 | GPA: 3.02/4.00

- Decision Sciences, Advanced Excel, Marketing Management, Corporate Finance, Financial Modelling & Simulations

University of Mumbai - Bachelor's in Management Studies | Jun 2015 - May 2018 | GPA: 3.70/4.00

- Business Statistics, Business Mathematics, Computer Application, Organizational Behavior, Corporate Finance

PROFESSIONAL EXPERIENCE

Santa Clara University - Research Assistant | Apr 2026 - Present | Santa Clara, CA

- Designed and built a production-oriented LLM workflow with LangChain and Python for schema discovery, natural-language-to-SQL prompt generation, execution, and response synthesis against MySQL, enabling non-technical researchers to use structured data through a conversational interface
- Deployed an open-source Mistral LLM service on AWS EC2 and monitored latency and performance, sustaining 5–10 second response times for complex natural-language-to-SQL queries against relational databases

Adobe - Data Scientist Practicum | Jan 2025 - Jun 2025 | San Jose, CA

- Built an end-to-end model experimentation and evaluation pipeline across 3 products, spanning data preprocessing, feature engineering, model development, and RNN benchmarking with Python, scikit-learn, and Keras
- Improved forecasting output quality by 2–4% through ADF/KPSS testing, MAPE-based evaluation, hyperparameter optimization, and iterative experimentation

XL Dynamics India Pvt Ltd - Process Executive MIS | Nov 2021 - Aug 2024 | Navi Mumbai, Maharashtra

- Prepared and designed 30+ MIS reports and dashboards using SQL, Excel, and Power BI, tracking key performance indicators and visualizing performance trends to support data-driven decision-making for senior leadership
- Collaborated cross-functionally with 7–8 teams to identify product and process improvements and standardize reporting workflows

MP Financial Advisory Services LLP - Credit Risk Analyst | Jun 2021 - Oct 2021 | Mumbai, Maharashtra

- Developed Excel-based financial models to evaluate creditworthiness and quantify risk exposure for 5 clients, delivering structured risk analysis summaries that informed lending and advisory decisions

Trio Logistics Pvt Ltd - Account Assistant | Jun 2018 - Jun 2019 | Navi Mumbai, Maharashtra

- Managed reconciliation reports and monthly financial summaries for 50+ clients, ensuring accuracy for tax filing

PROJECTS

IdeaCourt: AI Startup Idea Validator – Agentic AI (Beta Fund x GMI Agent Hackathon) | [GitHub Project Link](#)

- Designed and shipped a 6-agent platform that orchestrates specialized agent workflows to transform startup ideas into source-backed research, personas, PRDs, financial models, GTM strategies, and UX outlines; implemented multi-model failover, voice input, PDF reporting, audit trails, and fail-safe error handling

HealthMate: AI Fitness & Nutrition Guide – Conversational RAG | [GitHub Project Link](#)

- Developed and deployed a memory-enabled conversational RAG service using LangChain, FAISS vector search, Hugging Face, and REST APIs; achieved 94% history-aware retrieval accuracy and implemented a LangSmith LLM Ops evaluation harness for correctness, relevance, and groundedness, reaching 77% relevancy and 79% faithfulness

TECHNICAL SKILLS

- **AI Product Engineering:** LLM applications, LangChain, AI agents, conversational AI, RAG, prompt engineering, vector databases (FAISS), LangSmith, LLM Ops, LLM evaluation, Hugging Face, multi-agent systems, NLP, computer vision
- **AI/ML:** scikit-learn, Tensorflow, Keras, Feature Engineering, Regression, Classification, ANNs, CNNs, RNNs
- **Programming & Analytics:** Python, SQL, MS Excel, Tableau, Pandas, NumPy, Matplotlib, Exploratory Data Analysis, REST APIs
- **Cloud & Deployment:** AWS (EC2), Git, Github, Streamlit, Codex, Claude Code, GMI Cloud
