PROFESSIONAL SUMMARY

Data and applied AI professional with 5+ years of experience in MIS reporting, business intelligence, analytics, credit/financial analysis, and AI workflow automation. Recent M.S. in Business Analytics with an AI/ML concentration from Santa Clara University. Hands-on experience building LLM applications, Agentic AI systems, AI agents, Retrieval-Augmented Generation (RAG) tools, Text-to-SQL apps, forecasting models, and ML pipelines using Python, SQL, LangChain, AWS, and model evaluation methods.

TECHNICAL SKILLS

Applied AI & LLMs: AI Engineering, Generative AI, LLM Applications, Agentic AI, AI Agents, Retrieval-Augmented Generation (RAG), Text-to-SQL, Prompt Engineering, AI Workflow Automation, LLM Evaluation, LangChain, FAISS, Hugging Face, LangSmith

ML Engineering & Forecasting: Model Development, Feature Engineering, Model Evaluation, Hyperparameter Tuning, Time-Series Forecasting, Supervised Learning, Scikit-learn, Statsmodels, TensorFlow, Keras, PyTorch

Programming & Data: Python, SQL, Pandas, NumPy, Advanced Excel, data cleaning, exploratory analysis, data reporting

BI & Analytics: Power BI, Tableau, Matplotlib, KPI reporting, dashboards, MIS reporting, stakeholder analysis, ad hoc analysis

Cloud & AI-assisted Tools: AWS EC2, Streamlit, FastAPI, React, TypeScript, Git, GitHub, REST APIs, Vercel AI SDK, Codex, Claude Code

PROFESSIONAL EXPERIENCE

Santa Clara University

Research Assistant | Apr 2026 - Present

- Enabled data access using natural-language, measured by 41K+ artwork and 70K+ image records, by building an agentic Text-to-SQL workflow with LangChain, MySQL, validation, and LangSmith tracing
- Improved AI data reliability, measured by 111K+ cleaned and loaded records, by building a Python pipeline with null-safe transformations and post-load checks
- Improved SQL safety, measured by 5 safeguards for read-only access, schema constraints, query validation, error recovery, and traceability, by adding domain-grounded prompt engineering and observability checks

Graduate Volunteer | Jul 2025 - Mar 2026

- Helped non-technical users explore research data, measured by natural-language access to 41K+ looted-art records, by deploying a conversational Text-to-SQL LLM application on AWS EC2 with Streamlit, LangChain, OpenRouter LLMs, and MySQL
- Improved LLM response quality, measured by 5 query-support features, by adding schema extraction, conversational context, partial-text matching, schema-aware SQL generation, and natural-language result summaries
- Reduced database risk, measured by 4 query safety controls, by enforcing SELECT-only validation, unsafe-query blocking, result limits, and schema-constrained prompts

Adobe (with Santa Clara University)

Data Scientist Practicum | Jan 2025 - Jun 2025

- Improved subscription-seat demand forecasting, measured by 2.4% MAPE, by developing and comparing ARIMA, feed-forward neural network, RNN, and LSTM time-series models
- Captured trend and seasonality patterns, measured across 6,400+ daily records, by engineering lag, rolling-window, fiscal-calendar, holiday, growth, and Fourier features
- Prepared reliable modeling data, measured by 3 stationarity tests, by cleaning missing values with Pandas, NumPy and applying ADF, Phillips-Perron, and KPSS tests

XL Dynamics India Pvt Ltd

Process Executive - MIS | Nov 2021 - Aug 2024

- Improved KPI visibility for senior management, finance, and marketing teams, measured by 30+ recurring MIS reports, dashboards, and ad hoc analyses, by building reporting workflows in SQL, Advanced Excel, and Power BI
- Supported faster business decisions, measured by reporting delivery across 7-8 cross-functional teams, by clarifying requirements, standardizing workflows, troubleshooting data issues, and turning stakeholder questions into analyses
- Reduced reporting knowledge gaps, by creating training references, process documentation, data definitions, and escalation guides for recurring reports

MP Financial Advisory Services LLP

Credit Risk Analyst | Jun 2021 - Oct 2021

- Supported lending and advisory decisions, measured by 5 client credit evaluations, by building Excel-based financial models and summarizing creditworthiness, risk exposure, and recommendation drivers

Trio Logistics Pvt Ltd

Account Assistant | Jun 2018 - Jun 2019

- Improved tax-filing readiness for 50+ clients by preparing reconciliation reports, monthly summaries, and accurate financial records

SELECTED PROJECTS

IdeaCourt | AI Startup Idea Validator (Beta Fund x GMI Agent Hackathon)

- Automated startup idea validation, measured by evidence-backed Build, Pivot, or Do Not Build recommendations from 8 specialized AI agents, by using Tavily research, multi-model routing, and structured reasoning workflows
- Improved generative AI output reliability, measured by 4 validated artifact types across PRD, financial, GTM, and UX outputs, by adding provider fallbacks, Zod-validated outputs, and conditional generation with Next.js, TypeScript, React, and Vercel AI SDK

HealthMate | Conversational RAG Fitness & Nutrition Guide

- Delivered grounded fitness and nutrition guidance, measured by cited responses across 8 curated health documents, by building a full-stack RAG application with React, TypeScript, FastAPI, LangChain, Hugging Face embeddings, FAISS, and Groq inference
- Improved LLM application quality, measured by 36 test cases across correctness, relevance, groundedness, and retrieval quality, by creating LangSmith and LLM-as-judge evaluation workflows

Telecom Customer Churn Prediction | Classification & ML Pipeline

- Improved churn-risk ranking, measured by 0.74 ROC-AUC on approximately 500K customer records, by building an end-to-end ML pipeline with EDA, preprocessing, feature encoding, SMOTE balancing, cross-validation, and model comparison
- Turned model results into retention actions, measured by 4 key churn drivers, by identifying support calls, payment delays, short tenure, and monthly contracts and translating them into outreach and onboarding recommendations

EDUCATION

Santa Clara University - M.S. in Business Analytics, AI/ML Concentration | GPA: 3.71/4.00 | Sept 2024 - Dec 2025

ITM Business School - Post Graduate Diploma in Management | GPA: 3.02/4.00 | Jun 2019 - May 2021

University of Mumbai - Bachelor's in Management Studies | GPA: 3.70/4.00 | Jun 2015 - May 2018
